

METHOD AND SYSTEM FOR PROVIDING ONLINE WEB PAGE READING RECORDS

ABSTRACT

5 A method and system for providing online web page reading records allows a plurality of users to use reading record function on a web page. The method includes: displaying a web page content, providing a plurality of reading record function on the web page to match users' requirements, receiving reading records entered by the users through the reading record function on the web page and instantly displaying the related
10 reading records on the web page; and storing users' identification data and the related reading records on the web page made by the users.
